Fulfil your potential

Come and work with us and you will be working in Wales' largest FE institution. We are also one of the largest college groups in the UK. You will work in one of our three colleges, in one of our 14 campuses, from bustling urban locations to spectacularly beautiful rurality. You will work in colleges where the quality of teaching and learning comes first and where our learners are at the heart of our mission and purpose.

Our learners follow courses ranging from academic to vocational, from degrees to apprenticeships. They learn at colleges, in workplaces and remotely. For example, they increasingly use mobile access to learning resources. We serve the four counties of Denbighshire, Conwy, Gwynedd and Anglesey and the wider world – welcoming international learners from Chile to China. We also offer specialist business-to-business services in areas from innovation in manufacturing to advanced food technology.

Working with us, you will have excellent opportunities to develop your knowledge, talents and skillset so that you can fulfil your potential whilst helping our learners do the same. We have excellent resources and you will be able to take advantage of contemporary buildings and advanced learning technologies. In a teaching, support or managerial role, you will be able to build a career across an institution which is culturally, linguistically and socially diverse.

Our values are based on respect for our learners, for our staff and for our communities. They are based on excellence; on innovation; and on professionalism. Our standards have been recognised in external assessments by Estyn; in a host of prizes, including Beacon Awards; and in skills competitions where we compete successfully against other outstanding institutions at international level.

If you work with us, you will be able to enjoy a lifestyle and standard of living that is the envy of most of the UK and far beyond – taking advantage of competitive house prices, with mountains, lakes and sea directly on your doorstep.
